## NOTICE TO TEACHERS.

At a special meeting of the Board of Education of this city held on the 11th inst, the salaries of all teachers for the next year were reduced as follows: Principal of schools from \$125 to \$110 per month, and all other teachers in the district, \$10 each per month from the present rates paid. The necessity for this reduction is caused by the extraordinary depreciation in the assessed valuation of property in the district, which would materially cripple the district's finances if the present salaries were continued.
